

Research Participants needed

The iGAP Study

Improving General Practice Advance Care Planning

We are asking patients to share their thoughts and opinions about **Advance Care Planning**.

Advance care planning helps you to think about, talk about and document your wishes for health care decisions now and for the future.

This questionnaire should take about 10-15 minutes to complete.

If you are:

- ✓ 50 years of age or older
- ✓ Able to read and understand English
- ✓ Receiving care from a Family Physician
